### **Coins**

penny - one cent - \$.01

nickel - five cents - \$.05

dime - ten cents - \$.10

quarter - twenty-five cents - \$.25

### **Money Vocabulary**

cash - money in the form of bills or coins; physical money; money you can touch

income - the amount of money you earn per month or per year

budget - the amount of money available to spend on something

debt - when you owe money to someone

### **Years**

For most years from 1000 to 1999, we say the first two digits and the second two digits separately.

Example -

1066 ten sixty-six

1843 eighteen forty-three

1956 nineteen fifty-six

If the third digit is zero, we say “oh.”

Example -

1902 nineteen oh two

1705 seventeen oh five

1306 thirteen oh six

For years ending with two zeros or three zeros, we say “hundred” or “thousand”

Example -

1900 - nineteen hundred

2000 - two thousand

400 - four hundred

For years after 2000, we have two options of how to say them.

Example -

2001 - twenty oh one OR two thousand one

2012 - twenty twelve OR two thousand twelve

2019 - twenty nineteen OR two thousand nineteen

For years before 1000, we say the first number and the last two numbers separately.

Example -

485 - four eighty five

298 - two ninety eight

932 - nine thirty two
